Objective

Computer Engineering student with strong interest in software development, web development and machine learning. Experienced in developing applications using Java, MySQL, HTML, CSS and JavaScript.

Skills

- **Languages:** Java, HTML, CSS, JavaScript
- **Backend & Databases:** CRUD Operations, MongoDB, SQL
- **Tools & Platforms:** Git, GitHub, VS Code

Education

B.Tech Computer Engineering Pimpri Chinchwad College of Engineering CGPA: 7.52	2024 – 2027
Diploma in Information Technology Puranmal Lahoti Government Polytechnic Percentage: 90.75%	2021 – 2024

Projects

Group-Based Running Community Web Application

- Developed a full-stack web application for managing running communities, allowing users to join groups and register as runners.
- Built using Spring MVC, Hibernate, JSP, and MySQL with dynamic forms, real-time validation, and efficient data handling.

Library Management System

- Built a web-based system using HTML, CSS, Javascript and MySQL for book inventory and issue/return management.
- Reduced manual work through automated tracking.

Heart Disease Prediction (Machine Learning)

- Developed a machine learning model using Python and Scikit-learn.
- Predicts heart disease likelihood using patient health data.

Internship

Bright Career Infotech Web Development Intern	Jun 2023 – Jul 2023
• Developed responsive websites using HTML, CSS and PHP. • Worked on database connectivity and UI design.	
Android Development Internship	Jun 2025 – Jul 2025
• Developed a spiritual Android application using Kotlin. • Worked on UI design and feature development.	

Achievements

- Winner – Inter-College Hackathon (Diploma)
- 3rd Prize – State Level Project Competition for Diploma Engineering Students
- LPF Scholarship Holder – Lilapoonawalla Foundation Scholarship
